Attention of Gary Peck

I have received notification of amendments to the planned houses at 1 Freshbrook Road and would like to voice a few concerns.

The height of the building is very much higher than the original plans would indicate, it was originally a two storey, the same height as the previous building, and on a level with the top of the bungalow at 25a Freshbrook Road, it is now three storeys and I would say is now almost twice the height of the previous building and dwarfs the surrounding buildings.

I also note they have allowed for vehicular access, but with the amount of cars already parked in Freshbrook Road, this could pose a problem.

With the height the building as is it now I am completly overlooked over the whole on my garden by at least three windows. The windows on the 2nd floor were supposed to be frosted, as originally these were to be bathrooms, they are now clear glass and at least two of the windows look directly into my bedroom and three of the windows directly into my kitchen.

I am not very happy at this overdevelopment of the small area and the fact that I am now so overlooked and have lost my privacy.
