Attention Peter Barnett

Dear Sir

We are objecting to the proposed development on the grounds that the flooding that occurs nearly every year would be even worse.

The trees and the open ground that stores and soaks up water that would be lost and replaced with concrete and tarmac making the flooding much worse.

We have lived here for 44 years and the flooding has only got worse in recent years. Unless adur and worthing are planning on putting new surface water drainage in the near future.

Michael and Elaine Edwards
31 southview road.
