Subject: 100 Old Fort Road

Dear Sir

I am writing in support of the application by Mr & Mrs Carter to erect a greenhouse and tree screens/ supports in there front garden at 100 Old Fort Road.

This sort of project has to be admired, as residents of Shoreham Beach we know how difficult it can be to successfully grow plants let alone vegetables. The changes to there front garden addresses these issues very successfully and the addition of the superbly designed greenhouse will add to that success. In this age of energy conservation, green issues and the general encouragement of the goverment to grow more food ourselves the applicants attempt at transforming what was a concrete eye sore into a productive interesting space should be applauded and encouraged.

Shoreham Beach needs more trees, by planting the trees and then screening them Mr & Mrs Carter are making a brave (and presumably expensive) attempt at introducing some new "greenery"

Even though Old Fort Road has some striking properties on it, it is fair to say that the majority of there front gardens are bland and dominated by car parking. The applicants vision for a sustainable garden is commendable.

Yours faithfully

Gareth Piggott
