12 October 2009

Dear Peter Barnett,

Re: Planning Application to Extend Existing Dormer @ 3 Parkside, Shoreham-By-Sea, West Sussex. BN43 6HA

Subsequent to our discussion on the 12th October 2009, please find enclosed four copies of the amended plan (Drawing No. GM / NG / 901) taking into account your suggestions.

I have returned the dormer to its' original position at the rear of the bungalow and brought the front inwards to give a length of 1.05m from the front of the bungalow. This actually makes the whole dormer very nearly symmetrical with the difference being only +50mm at the rear.

This will allow for the limited space bathroom of a type that I showed you during our meeting.

Treatment of the new dormer height as stated before: dormer height will be reduced and the ridge tile re-instated. This will enhance the look of the dwelling from the south-east street scene.

Windows frames to be UPVc white to match existing, with opaque glazing to all windows in the north elevation of the dormer. This will help with regards to any privacy issues.

If you have any queries please do not hesitate to contact me.

Yours faithfully

[redacted]
