I have just been made aware of the revised plans for 8, Winterton Way and wish to object in the strongest possible way to the new Eastern Elevation which proposes a new feature glass window, let into a dormer which will overlook our garden and living room. The original plan showed a roof-light let into the slope of the roof, to which we had no objection. However this new planned dormer window will impact greatly on our privacy and give a clear view into our home.

We have already lost a lot of privacy due to the similar extension built at 10, Winterton Way, which we agreed to, on condition that they would plant trees at the bottom of their garden to screen us. They have |

planted one tree so far which makes very little difference. We would welcome a visit from Ms. Barker so that we can verify our objection.
