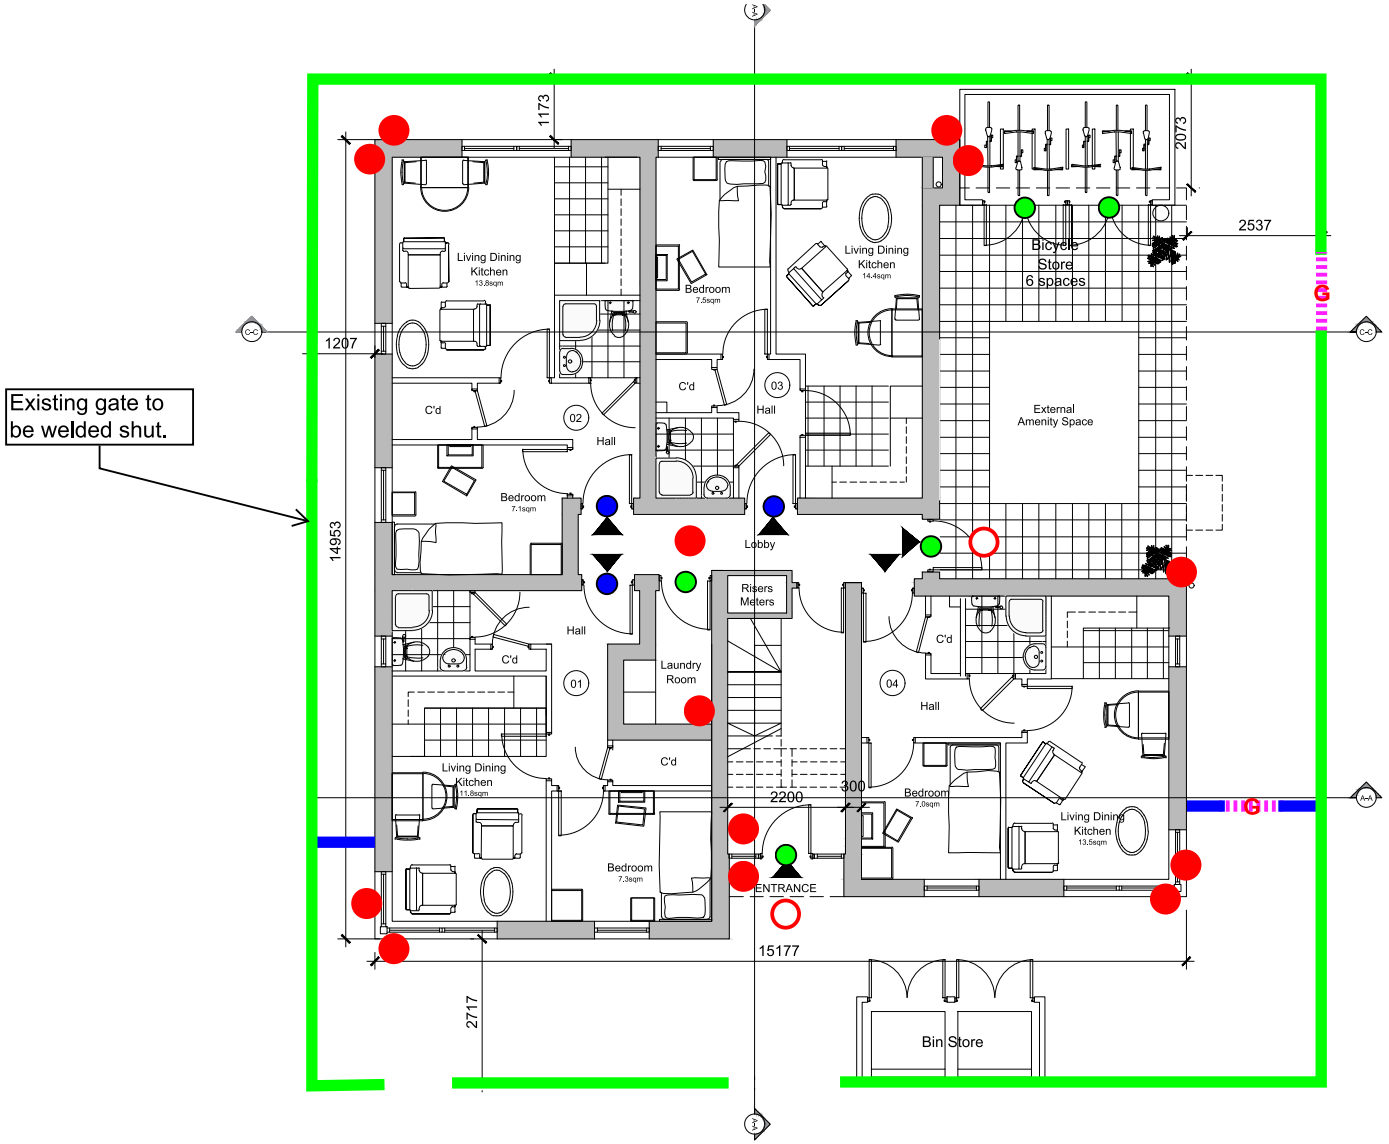
Proposed CCTV, lighting, security, entry systems plan - 22 Clifton Road.



N

KEY

- Additional proposed fencing for security*.
- Proposed lockable gate.
- Site boundary / enclosure.
- CCTV camera**.
- External light above door with PIR sensor.
- Master key locking system***.
- Client key locking system***.

NOTES:

***Enclosures:** Additional gateways to be added to prevent the passage of occupatns into areas which may be subject to antisocial behaviour, and to protect the external space from non-residents/trespassing.

****CCTV:** CCTV to be remotely operated allowing Turning Tides staff to monitor the building in the absence of an office space. CCTV to cover all external spaces, footprint of the site & internal corridors. On the upper floors, the stairway and corridor will be covered.

*****Locking system:** Entrances/exits to the building, bin store, bike store & laundry room to be unlocked with a master key, with a copy of that key being given to each resident and Turning Tides staff. Clients will also be given individual keys to unlock the front door to their apartment which will be unique to their flat.
