Total original space around the house= Total land plot – original area of house= 189.7234metres squared – 48.4512metres squared= 141.2722metres squared.

Total area of proposed extension and the Existing Outhouse= 30.1metres squared + 19.1828metres squared= 49.2828metres squared.

Percentage of land around the house to be occupied by the existing Outhouse and the proposed extension =49.2828/141.2722*100= 34.884995%
