Dear Sir/Madam

I am writing in response to the letter we received regarding some neighbours having a loft conversion at 124 Greenways crescent.

We have looked at the plans in place and feel that we are not happy that these plans fit in with the rest of the crescent. Our biggest issue is that the rear dormer looks much too big and needs to be scaled down to fit in with the rest of the crescent. Though this may not have a direct impact on us as we are opposite them we do feel that this will cause lack of privacy for their next door neighbours and also restrict the sunlight other neighbours will get.

We ourselves had a loft conversion some ten years ago and made sure that it was unobtrusive and fitted in with the rest of the crescent and we really feel that the plans in place at number 124 do not do this. We are not against them having a conversion but just feel they should reconsider the size of the project and downsize.

Thank you for taking the time to read this.

Yours faithfully
