Reasons for comment: - Privacy Light and Noise

Comments: I would like to express my concern over privacy to my property in regard to this extension as below:-

My main concern is the proposed plans indicate the new extension would be just a few metres from our boundary fence!

I am also concerned about the 1st floor bedroom window (that will have windows that can open) as it will overlook every part of our garden and see into our conservatory leaving us with no privacy.

If obscure glass was offered as an alternative to aid privacy this would not solve the problem as it is proposed to be a full window with windows that could be opened and they would still be able to view our property and we would lose our privacy.

The overall objection is privacy would be lost and we would feel we were being completely overlooked from every angle. The only solution to enable us to have our privacy would be to not have any windows at the back of the proposed extension so we would not be overlooked!
