Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I would like to support my neighbour at 37 Hadrian Avenue, Southwick for the proposed rear extension. The proposed extension would be less intrusive and wouldn't project out for it to be seen by myself or other neighbours from the front of the property.. Only their adjoining neighbours either side of them would be able to see it and after speaking with them I know they also support the extension. To the rear of them are Pylons and a sub station preventing any additional overlooking from what already exists. The proposed plans show a much better design and view of the rear of the property than it does now. The materials have been kept to traditional and within keeping of the area and properties making it blend in more than standing out. Having personally visited the property and looked internally of the space and the proposed

space this would bring, I can see the huge benefits it would bring giving the extra space for their family to grow and stay here. This would prevent them having to look at moving as this extension would support their growing family living within it. I hope approval is granted.

Kind regards
