Dear Rex

I'm writing in connection with the application for the side extension at the above property.

I must advise you that I have a concern about the forward projection of the proposed garage which I consider will make the extension rather prominent in the street scene. Its impact will be excaerbated by the height of the parapet wall. I would prefer to see the gaarge pushed further back so that it does not come forward of the bay window of the main house. This will obviously have implications for the internal layout of the remainder fo the extension and you may therefore wish to consider removing the garage element altogether.

I shall be grateful if you would consider this advice and submit amended plans in due course. Please contact me if you would like to discuss the matter further.

Thanks

Peter Barnett
