For attention of Jo Morin

24/04/2024

Our reference: **AWDM/0945/23**

Dear Ms Morin,

Re: Non-Material Amendment for AWDM/0945/23 CREATION OF NEW VEHICULAR ACCESS FROM LITTLEHAMPTON ROAD (A2032) TO SERVE WORTHING DURRINGTON POLICE STATION AND CUSTODY SUITE AND RELOCATION OF GAS METER HOUSING

Revised access design

Please accept my revised access design for the above development as indicated on the following drawings:
PROPOSED ACCESS DESIGN 70115898-WSP-XX-XX-DR-LP-0100-101 Rev P04
VISABILITY SPLAYS 70115898-WSP-XX-XX-DR-LP-0100-103 Rev P03
FIRE, REFUSE & DELIVERY VEHICLE SWEPT PATH ANALYSIS 70115898-WSP-XX-XX-DR-LP-0100-102 Rev P03

The access arrangement has been amended slightly to provide a larger splitter island. This was necessary to ensure that the island is suitably sized to be used by all types of cyclists in accordance with design standards in LTN1/20 paragraph 10.4.7.
The standard requires a minimum island length (in the direction of travel of the cyclist) of 3m.
The existing approved plan includes an island length of 2.7m, which is substandard.
The proposed amended design provides a nominal minimum island length of 4.2m, which exceeds the minimum standard.

In the development of the revised design I have discussed the proposals with Ian Gledhill of the County Council's Highways Planning Team. I can confirm that Ian was supportive of the proposed amended design.

In accordance with the Councils' policies, the revised layout has been subject to a Stage 2 (Construction Phase) Road Safety Audit, and the revised elements were found to be acceptable in safety terms.

Should you have any questions regarding this application please do not hesitate to contact me.

Yours sincerely
