Hello

I have tried to use the online system but got an error.

I wish to object to this retrospective application.

The issue is very simple. The post/pickup point is located on a site where there is zero parking provision. Couriers dropping off have to park illegally on double yellow lines. Not only is this illegal, it blocks the pavement when they park on it (as they regularly do) and dangerously block the site line for traffic exiting from Salt Marsh Road.

Incidentally right now the building site opposite the post unit is very active creating a further risk when couriers park illegally as my photo clearly shows.

Regards

Graham Baxter
