Dear Peter,

RE: AWDM/1041/26 - Church Of St Mary De Haura Church Street Shoreham-by-sea West Sussex.

Thank you for your consultation on the above site. We have reviewed the application as the drainage consultant acting on behalf of the Council and wish to make the following comments.

The applicant is applying to vary Condition 1 (Approved Plans) of previously approved application AWDM/0180/26. Amendment: Revision to Written Scheme of Investigation and site plan to allow for an alternative drainage route. ORIGINAL DESCRIPTION: Replacement of doors to the south transept, installation of a post externally within the grounds of the church to mount a button to automate the doors, installation of below ground drainage to facilitate installation of WC facilities. The application is to Adur District Council.

Following a review of the submitted information, we have noted no changes to surface water drainage or flood risk. Due to the site, size, location, and type of development **we would recommend the approval of the application.**

Yours sincerely,

Sustainable Water Management Officer
