

Development Management - Delegated Officer Report

Application Number: AWDM/1453/25

Recommendation – APPROVE

Site: 12 Boundstone Lane, Lancing, BN15 9QJ

Proposal: Application for a Lawful Development Certificate for proposed loft conversion consisting of rear dormer and rooflights to front elevation.

Date of site visit: Assessment has also been assisted using the Applicants plan; Earthlight mapping; and Google 3D of the site

Neighbours checked: Y

Additional neighbour notifications: N

Site and Surroundings:

No. 12 Boundstone Lane lies on the east side of the road and is a two storey middle of terrace dwellinghouse with a two storey front square bay, and a flying gable at the front which straddles 2no. properties no.'s 10 and 12. This feature is a design effect on each block of terraces.

There is also a detached outbuilding at the rear of the rear garden. The rear garden of the property backs onto a rear access for each of the dwellings in the block. The property has a small front amenity area.

This section of Boundstone Lane is characterised by two storey dwellings but further along the road this changes to bungalows. There are also blocks of flats of three stories

The site is not a Listed Building or within a Conservation Area.

Relevant Planning History: None

Proposal:

A Certificate of Lawfulness is sought for a:-

❖ Loft extension comprising:-

- Rear (east) flat roof dormer; and
- 3no. rooflights to front (west) roofslope.

Planning Assessment

Principle

The proposal will be viewed against the criteria of permitted development as laid out within The Town and Country Planning (General Permitted Development) (England) Order 2015 as amended

Consideration

Schedule 2, Part 1, Development within the curtilage of a dwellinghouse.

Class B – additions etc. to the roof of a dwellinghouse

Permitted Development

B The enlargement of a dwellinghouse consisting of an addition or alteration to its roof

Development not permitted

B.1 Development is not permitted by Class B if:-

a) The dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q.

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

b) The height of the roof extension would exceed the highest part of the existing roof;

Analysis: The flat roof dormer extension will be positioned lower than the existing ridge of the roof, therefore the height of the roof extensions would not exceed the highest part of the existing roof.

(c) the roof extension would extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway;

Analysis: The roof dormer extension will not be on the principal elevation but on the rear and will not front a highway.

(d) the cubic content of the resulting roofspace would exceed the cubic content of the original roof by more than:-

- i) 40 cubic metres in the case of a terrace house, or
- ii) 50 cubic metres in any other case.

Analysis: The submitted plans are notated and state that the volume of the dormer would be 13.78m³. The 40m³ is thereby not exceeded.

(e) it would consist of or include:-

- i) the construction or provision of a verandah, balcony or raised platform, or
- ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe;

Analysis: None of the above are shown on the submitted plans

(f) the dwellinghouse is on article 2(3) land

Analysis: The dwellinghouse is not on article 2(3) land.

(g) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses); or

Analysis: The dwellinghouse has not been created by virtue of Part 20.

(h) the existing dwellinghouse has been enlarged in reliance on the permission granted by Class AA (enlargement of a dwellinghouse by construction of additional storey).

Analysis: The above does not apply.

B.2 Development is permitted subject to the following conditions:-

(a) the materials used in any exterior work must be of similar appearance to those used in the construction of the exterior of the existing house;

Analysis: The submitted permitted development statement states that the materials of the dormer are to be hanging tiles to the face and cheeks to match the existing roof tiles.

(b) the enlargement must be constructed so that:-

i) other than in the case of a hip-to-gable enlargement which joins the original roof to the roof of a rear or side extension –

(aa) the eaves of the original roof are maintained or reinstated; and

(bb) the edge of the enlargement closest to the eaves of the original roof is, so far as practicable, not less than 0.2m from the eaves, measured along the roof slope from the outside edge of the eaves, and

ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension no part of the enlargement extends beyond the outside face of any external wall of the original dwelling house.

Analysis: The submitted permitted development statement confirms that the dormer will be set back a minimum of 20cm from the original eaves.

c) any window inserted on a wall or roof slope forming a side elevation of the dwelling house must be:-

i) obscure glazed and

ii) non-opening unless the parts of the window which can be opened are more than 1.7m above the floor of the room in which the window is installed.

Analysis: There are no new windows shown to be included within the side elevations of the dormers.

Class C – other alterations to the roof of a dwellinghouse

Permitted development

C. Any other alteration to the roof of a dwellinghouse.

Development not permitted

C.1 Development is not permitted by Class C if—

(a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q of Part 3 of this Schedule (changes of use);

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

(b) The alteration would protrude more than 0.15 metres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof;

Analysis: The submitted permitted development statement confirms that the rooflights will not protrude more than 0.15m beyond the plane of the roofslope of the original house.

(c) It would result in the highest part of the alteration being higher than the highest part of the original roof;

Analysis: The rooflights etc., will not be higher than the highest part of the original roof, namely the ridge.

(d) It would consist of or include—

- (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or
- (ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment.

Analysis: None of the above are included within the submitted application.

(e) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses).

Analysis: The above does not apply

Conditions

C.2 Development is permitted by Class C subject to the condition that any window located on a roof slope forming a side elevation of the dwellinghouse must be— (a) obscure-glazed; and (b) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed.

Analysis: There are no new windows shown to be included within a side elevations of the dormers.

Recommendation

Issue a Certificate of Lawfulness as the proposal is permitted development under Class B, and Class C within Schedule 2 Part 1 of Town and Country Planning (General Permitted Development) (England) Order 2015 as amended.

Reasons for Recommendation

The proposal constitutes 'development' as defined by Section 55 of the Town and Country Planning Act 1990, and is permitted by Schedule 2, Part 1, Class B, and Class C of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended.
