Additional information has been provided for condition 17 (travel plan).

As requested, separate residential and commercial travel plans are provided. WSCC previously commented upon the residential travel plan and this has been satisfactorily updated to reflect the comments previously made. The residential travel plan is accepted. The commercial travel plan hasn't been reviewed previously. This largely follows the approach set out in the residential travel plan. With the commercial elements, it's recognised that there will be a number of different occupiers who may in turn wish to implement their own travel planning measures. For the purposes of the conditions discharge, the submitted commercial travel plan is accepted albeit the possibility of further substitute travel plans is acknowledged.

Condition 17 can be discharged.
