Comments:	Whilst in principle I dont object to hospital having a flag if they feel they need one, at 6m high on this corner of the hospital site the flag will be directly in the viewpoint from the windows of my property. I'm not petty enough to suggest that it will restrict my view however with no indication of what the flag is going to show or why the hospital require a 6m high flag, I am only objecting as a precaution because I appreciate that once consent has been granted and the flag has been erected, it would be too late to object at that point.

Kind regards
