For the attention of :- Peter Barnett.

Dear Peter,

We are the owners and occupiers of no: 5,Feversham Close, Shoreham, and are the direct neighbours, on the south side, of the proposed development.

We are writing to make formal compliant of the proposed window in the newly formed gable on the south elevation under relevant planning considerations in terms of "overlooking and loss of privacy".

The proposed window will have direct visual access over the entire rear of our property, and will be a complete invasion of the privacy we currently enjoy.

We appreciate that the window is denoted as having obscured glass, however it is also illustrated as openable, which will make the fact that it is obscured irrelevant.

We understand the purpose of this window is to provide daylight to the stairway which we appreciate, but the same effect could be achieved by providing an additional roof light over the stairway on the west elevation, which would satisfy our objection.

We would be happy to invite you to view the proposal from the rear of our property to get a sense of our concern, and of course be happy to discuss this matter further with you should you so wish.

We are contactable on either the following telephone no [redacted]

Please acknowledge receipt of this letter.

Yours Sincerely,

Neil Turner.
