Reasons for comment:	- Other
Comments:	We object strongly with this application. As local residents we feel that the proposed activities are not in keeping with the protected undeveloped costal green space ethos for Goring Gap. We are very concerned with the noise, pollution and environmental impact this application would cause. The increase in traffic and overnight parking will create disturbance for local residents and wildlife. We do not feel this space is suitable for event and bar space. The visible impact of shipping containers will detract from natural beauty of the area.

Kind regards
