Dear Mr Peck

Please accept this email as your website is returning error messages when I try to comment online. I would be grateful if you could acknowledge receipt of this email and confirm that my comments will be added to those made by other respondents. Many thanks.

The planning application submitted, if allowed, would be of significant detriment to the surrounding area. One of the attractions of this section of the seafront is that there are no leisure facilities as often found in seafront locations, meaning that families and their children can enjoy the greensward and the beach in a peaceful and natural way, for picnics, relaxation and for playing gentle ball games together for example. There are refreshment facilities and toilet facilities within walking distance by means of the Sea Lane Cafe and a longer walk to the west by means of the Bluebird Cafe. The permission sought would bring noise and unnecessary additional recreational facilities disturbing the peace and natural environment and disturbing wildlife that inhabits the immediate vicinity. This application is a means to make revenue for the applicant at a cost to local residents and their families - there is no benefit to be gained and much to be lost. The area of Goring Gap is protected with the Local Plan and with good reason. At some point it is the responsibility of elected officials to step up and protect the natural environment for families and to ensure that those seeking to harm and negatively impact our local area for their own gain are prevented from doing so.

Kind regards  
Lesley Young (Mrs)
