LOCATION (Site Address) 30 Church Lane Southwick

Importance of tree to locality Tpo Tree in a conservation area

REASON FOR REPORT

Request to carry out general maintenance to several trees alongside access roadway to 30 & 28 Church Lane.

REMARKS / CONDITION:

All of the trees are in generally good health with no obvious signs of damage or decay. Some have accrued a considerable amount of deadwood but nothing that affects the structure of the tree.
T1 = Mature Holm Oak that is growing in close proximity to another more dominant Holm Oak. This has resulted in a curved growth that has most of the crown low down on tree. Crown lifting will remove approximately 30% of the crown.
T2 = Good specimen – requires dead wood removal.
T3 = Also a good specimen tree, some low branches.
T4 = Large mature tree single branch extends over the access road. This requires cutting back to a suitable fork.
T5 = Very good mature tree requires deadwood removal and some low branches over roadway removing.
T6 = Small willow with a large amount – 30 -40% dead wood.
T7 = Tall mature Lime tree requires dead wood removal and pruning back branch effecting nearby holly tree.
T8 = Small willow requires lifting and dead wood removal.

Tree Survey and Inspection

WORK / REQUIREMENTS;

T1 = Crown lift up to 4-5m (tpo tree)
T2 = Dead wood
T3 = Crown lift up to 3-4m
T4 = Prune single branch by up to 2m (tpo tree)
T5 = Crown lift up to 4-5m (tpo tree)
T6 = Dead wood
T7 = Dead wood and prune over holly tree (tpo tree)
T8 = Crown lift up to 4-5m

Recommend above works be permitted.
