Dear Gary

Please may I share the following question and request regarding the revised plans, both of these relate to our concerns around privacy?

Confirmation of the ridge height of the proposed dwellings, in order for the committee to fully consider the impacts and potential to be overlooked.

If the proposal be approved, please can it be conditioned that the declining bank, to the north edge of the development is left, (after any essential tree work is carried out), in order to retain the 'green corridor' and natural habitat currently in situ.

Many thanks and kind regards

Claire
