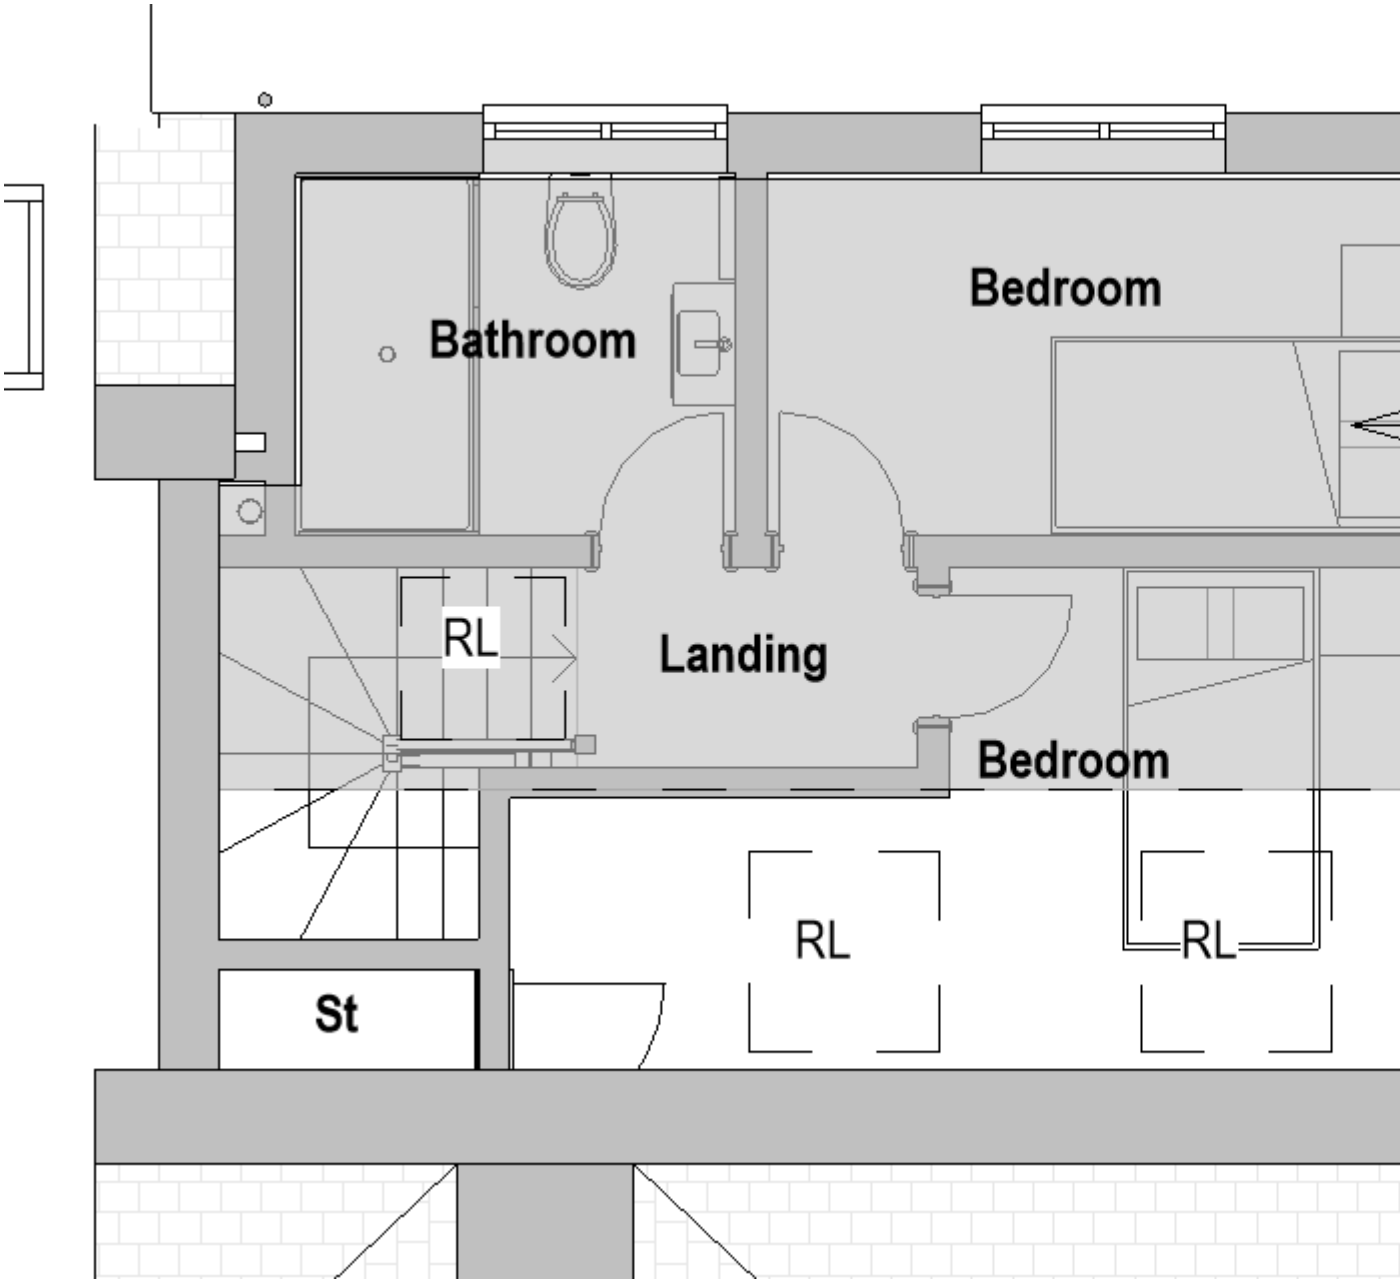
Hello Emily,

Thank you for your email.

We have never had to submit any sections for any of the multiple planning applications that we have submitted in the last many years for loft conversions.

I can confirm that the heights of the rooms internally, highlighted in grey below are 2m. the dash line in the drawing also indicates 2m head height.



We trust this is enough to validate this application, but please let us know if you need anything else.

Kindest regards,
Maria
