Reasons for comment: - Other

Comments: I would like some information with regard to the demolition of this site and the associated rrisk management with regards to asbestos handling . I would also like to question why notice was only put up this morning that this Work would be carried out when the demolition has already started yesterday. This work has been initiated without a period of notice nor an assessment of risk to residents safety. Furthermore no information has been shared about any potential hazards this demolition may present.There are a number of residents with chronic chest /breathing difficulties who maybe gravely affected if proper safe demolition of site is not adhered too.
