To: planning@adur-worthing.gov.uk

Dear Peter Barnett,

In connection with the above planning application having examined the plans I raise the following concerns and objections:

- Overlooking & loss of privacy/direct overlooking property & garden
- Loss of daylight/privacy, particularly in rooms directly adjacent
- Visual impact of overcrowding
- Over-bearing / out of scale compared to neighbouring properties; out of character to other neighbouring properties that are a mix of bungalows / chalet bungalows frontage
- Oppressive/overbearing environment next to house/garden
- Greater sense of enclosure / feeling of being hemmed in because of the close proximity and height of the proposed extension; outlook from our rear 1st floor window

Happy to expand upon these concerns and objections with yourself, the appointed planning officer, if required.

Please acknowledge receipt of this email and do not display my personal details on public website etc.
