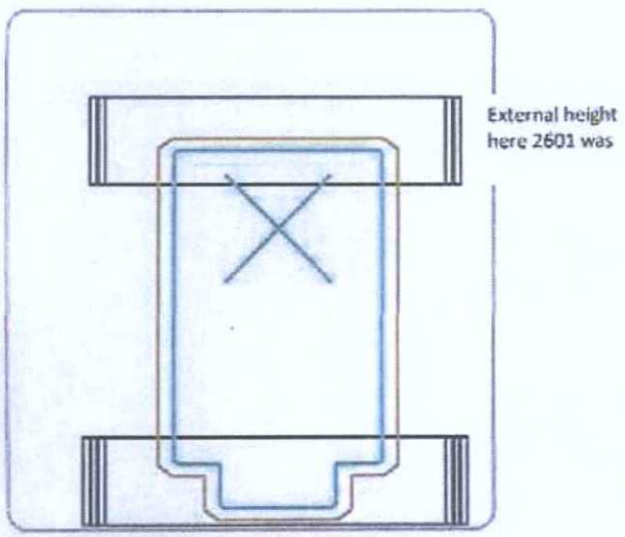
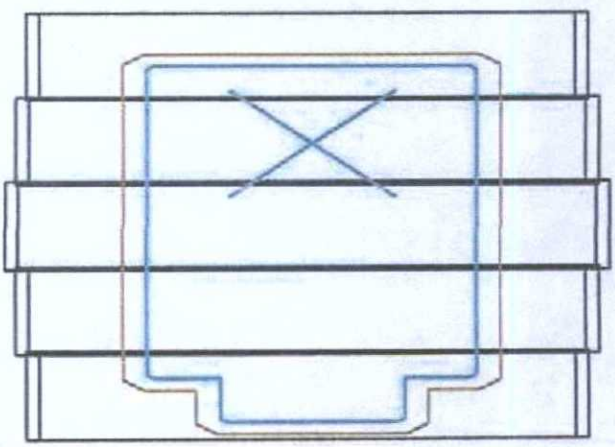
AMENDMENT

Guiding description :

Sketches of the opening method :





Seals and weather proofing :

. Between 2 rolling modules, 1 rubber provides a seal.
. Bottom side profiles are equiped with 2 rows of brushes.
. The bottom of end panels are equiped with 1 floor rubber.

Every effort is made to ensure the enclosure is air and water tight but because the elements are rolling it cannot be guarenteed.

Cover is not provided with bottom track.
The enclosure is manually operated : it is not motorized.
Cover is un-assembled and will be re-assembled on site (complete arches).
Tailor made enclosure with :
- a diabolo shape : the size of each element is as follows :1-2-3-2-1
