Tree Survey and Inspection

Tree (*Species*)	T1 = Sycamore T2 = Bay/Holm Oak T3 = Elder T4 = Holm Oak	Age (*est*):	T1 = 2-3yr old T2 = 5-10/10-15 T3 = 5 T4 = 30+	Height:	T1 = up to 5m T2 = 6 t0 8m both T3 = 10m T4 = 12-14m

LOCATION (Site Address) Miller & Carter (Sussex Potter) Mill Road Lancing

Importance of tree to locality Trees in a conservation area

REASON FOR REPORT
Request to fell several trees most of which are of little amenity merit.

REMARKS / CONDITION:
T1 = Small group of self seeded samplings – just weed clearance.
T2 = Possible there is some confusion over which tree is to be felled. There is a large bay that is closest to the fence line. There is also a relatively small young Holm Oak slightly further back. Both trees are healthy but only the Oak is worth keeping.
T3 = Elder of no importance.
T4 = Very large Holm Oak. This tree was multi stemmed at about 1 meter. With 10+ stems extending to around 14 meters. A split occurred which divided the tree and the single stem into two. Although the tree has survived for several years it is far too damaged to be retained.

WORK / REQUIREMENTS;
T1 = Remove/fell
T2 = Retain the young Holm Oak and remove Bay
T3 = Remove/fell
T4 = Remove/fell

Recommend above works be permitted.

TREE VALUE

A	Important tree worth saving	✓ = T2 Holm Oak
B	Less important than above	
C	Suspect tree requires monitoring	
D	Dead or of no consequence	✓ = T1 T3 & T4
