Development Management - Delegated Officer Report

Application Number: AWDM/1087/19 Recommendation – APPROVE

Site: Flat 2, 5 Southview Road, Southwick

Proposal: Proposed infill conservatory at first floor and provision of external cladding to west elevation.

Date of site visit: 23rd May 2019 (PB at pre app)

Neighbours checked: Y

Additional neighbour notifications: N

Proposal, Site and Surroundings

The application site is a flat which occupies the first and second floor of a terraced property in Southview Road, Southwick. Flat 1 is the ground floor. To the rear of Flat 2 there is external access at first floor to a terrace enclosed by wooden balustrade and the rear projection of the existing property on one side and the neighbouring property to the other. The terrace is within a recess above a flat roof.

Consent is sought to enclose this area with a conservatory with glazing to the roof and rear, the existing side walls will enclose the space to either side. The conservatory will not extend beyond the recessed area and is to the rear of the site.

Also proposed here is white weatherboarding cladding to the rear elevation of Flat 2 only. As existing the building is white rendered.

'Supplementary Planning Guidance' comprising: Development Management Standard No.2 'Extensions and Alterations to Dwellings''
National Planning Policy Framework (February 2019)

Planning Assessment

Principle

The proposal comprises upgrading the existing housing stock located within the built up area and can be supported in principle. The relevant issues are the effects on the amenities of neighbouring residential occupiers and the effect on the character and appearance of the dwelling and its surroundings.

Visual amenity

The proposed development is not visible within the street scene; it is to the rear of the site, the conservatory addition although elevated is positioned within an existing recess and will therefore appear subservient and will not be a prominent feature. The white uPVC will be in keeping with the white of the building and the existing white window frames. The white cladding will also be in keeping here and not a detrimental feature in this case.

Residential amenity

The existing terrace at the property does as existing result in some overlooking to neighbouring properties to the rear. The terrace was approved in 2005 and since this time 5A to the rear of the site has been converted into a dwelling. The enclosure of the terrace for use as a conservatory will result in an increased use of this space however this will not result in any significant overlooking than currently exists. It will be set within the recess therefore limiting any overlooking. On balance, taking into account the current situation this development is acceptable.

Recommendation

APPROVE

Subject to Conditions:-

1. Approved Plans
2. Standard 3 year time limit
3. Materials to match existing

Is recommendation contrary to letter(s) of representation? N

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
