Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment: - Privacy Light and Noise

Comments: We would like to oppose the planning application due to the very negative affect it would have on the light to the west side of our bungalow. The height of the east side elevation to their property would hugely impact to our west side which is where most of the light to our bungalow comes from. We only have one window on the east side of our property and rely on the existing light from the west to light the hallway, bathroom and WC and kitchen.
We have viewed a similar extension in our road and can see how much the light is impacted on in the neighbouring property.
