Are you seeking consent for works to tree(s) Subject to a Tree Preservation Order (TPO)? ☑ Yes ☐ No

6. Tree Preservation Order Details

Do you know the title of the *Tree Preservation Order (TPO)*? ☑ Yes ☐ No

If the trees are protected by a TPO, if possible please number them as shown in the First Schedule to the Tree Preservation Order (for example T3 Oak; two Beech and one Birch in G2; seven Ash in A1; sycamore in W1).

Trees and proposed works:

G2. 10 SYCAMORE. REDUCE HEIGHT BY 33%.

T2. SYCAMORE. FELL

You might find it helpful to consult a tree surgeon to clarify what needs to be done. THIS HAS BEEN DONE.

Please state the reference number you have given the plan: (X) + (Y)

Trees - Reasons For Works

This section only needs to be completed if you are seeking consent to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

G2 The number + current (+ future) size of the sycamore trees, which we're told can grow to 100 ft – currently about 70ft-73 With the strength of winds + the volume of rain we often encounter now, we feel that these trees, (should even 1 of the 12 fall), represent a danger to human life + to property in such a built-up area.
This work has been advised by the tree surgeon who recently felled a dangerous sycamore for us, as agreed by yourselves.
T2 See Section 9 below.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall: ☐ Yes ☐ No

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser).

Alleged subsidence damage: ☐ Yes ☐ No

If Yes, Information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in the vicinity and its management since discovery of the damage.

9. Trees - Additional Information

Are you providing additional information in support of your application? ☑ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports etc in support of your application:

T2 Please see Plan (X). This sycamore is adjacent to house, conservatory + rear ancient 12ft flint wall. It is 4 foot from terrace on which flagstones are lifting, probably due to its roots, as per Mr Parahi, our tree surgeon. It is old + 40 foot high, with a 5 foot girth + is much too close to our house. (See also reasons at section 8 above).
Please also see Plan (Y), which is dated prior to our house being built on the site. (I believe approval was given for removal of G1 + T1 at that time). I have drawn in where our house now stands.
