Hi Marie,

I object to this application to vary condition 4 of permission AWDM/1868/17.

As the records will demonstrate I objected to the original application AWDM/1868/17 as no acoustic assessment had been submitted with the application. The development was adjacent to the A259 a busy A road and in my view it was necessary to protect the future occupants from excess noise.

As the records show, James Breckall in his e-mail to me dated 22nd January 2018 advised that he could provide an acoustic assessment or submit an assessment subject to conditions. He now appears to be backtracking on his initial assurances.

The scheme required to protect the proposed noise sensitive development from noise from the road needs to be based on good evidence, which should include noise measurement. In my previous e-mail correspondence with Mr Breckell, I have advised the type of acoustic assessment needed for this purpose ( ProPG: Planning and Noise) and the noise objectives to be achieved. Environmental health are not going to agree any scheme based on unqualified guesswork. See Planning Noise Advice Document Sussex for further information on this matter https://www.adur-worthing.gov.uk/media/media,121802,en.pdf

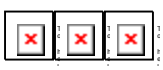

Kind Regards

Michael Lavender
