Adur and Worthing Planning Department

Planning Application Reference: AWDM/1953/19

25th March 2020

Dear Sir/Madam

Myself and my family have been residents of Lancing all our lives and therefore feel that we have the best interests of Lancing at heart. We have viewed the planning application and submissions from other Lancing residents on the planning department's online portal. We are concerned that it would appear that many of the representations that have been made demonstrate an extreme bias against the development of this new dwelling. There appears to be misunderstandings, exaggeration and inaccurate statements and conclusions. It seems to us that every measure is being taken by the applicants to attempt to provide a balanced design for this chalet bungalow that minimises any impact on other local residents. It is quite clear that providing such a dwelling on this piece of land to the rear of 88 Crabtree and next to The Hollies flats and large car park is entirely a reasonable proposition. Any suggestion that this proposed development somehow does not fit in with the local area is clearly not a credible claim.

We provide our support for the provision of an important additional home in the central Lancing area and trust the Council will provide approval for this application.

Yours Sincerely,

Mr. M. Thurgood
