Comments: The documents make reference to a Greenspace Ecological Solutions report. I would like to see this report in full, in order to satisfy myself that the hibernacula shown on the plans will be adequate.

However, I also object to these plans with regard to loss of light, as this building would impinge on the whole south face of my house, reducing light to many windows and the garden. I also object on grounds of noise: I let rooms to lodgers and the noise disturbance during building could adversely affect my income. I would expect to be reimbursed if this were the case.

I note that that windows have been added to the new plans in the north-facing walls. For the sake of maintaining privacy, the ground-floor windows should have obscured glass.
