Hi Stephen,

I have no objections to this CMP being signed off. Please can you advise the applicant that sufficient time is provided for the proposed S61 consent for noise management. Maybe submitting a draft application first.

The working times are stipulated in the CMP but sometimes working beyond these hours may be required for emergency or necessity. For example concrete pours may sometimes require extending working hours. If this is foreseeable then they should include this in the application.

I have attached the relevant guidance and S61 application form for their information.

Regards
