Email: [redacted]

Address: Not Available

Comments Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Highway Access and Parking

Comments: I would fully support this application on the basis of it providing an improvement to traffic flow and safer alternative to the current on street parking. On street parking along this stretch of road is in great demand, the address is close to a junction and current parking arrangements create a safety issue by reducing visibility for vehicles crossing the junction. Allowing this application will reduce the number of vehicles parked on the road and improve traffic flow, currently due to demand vehicles park on both sides of the road which restricts traffic flow along a bus route.
