Just received notification of the above application (9/3/2021. As the building works are almost completed I feel this letter I have received is just paying lip service to planning rules. Surely I should have had notification weeks ago, at least that was the case whenever I have needed works done to my own property. I feel this development is to close to my house ,it prevents any future maintenance that I may need to carry out to the East elevation of my single story extension impossible and my boundary fence is now trapped between the 2 properties, again making repair/ maintenance impossible

[redacted]
