BikeBunker

- SECURE
- CONVENIENT
- EASY TO USE
- STORES UP TO 3 BIKES

This new model has been designed specifically for the secure and convenient storage of bicycles. Due to its ample height and width it can accommodate all types of mountain or racing bikes and, depending on the cycle design, can usually store up to three adult bikes.

The bicycle store features a unique spring assisted opening action allowing easy access and includes two padlock points for security.

This model is produced from PVC coated galvanized steel which is guaranteed for 15 years against corrosion; it is also maintenance free and fire resistant.

COLOURS
The bicycle store features Moorland Green side panels and Olive Green roof/door.

OPTIONAL EXTRAS

- PLYWOOD FLOOR

  The 12mm exterior grade plywood floor is used if you require the contents of your unit to be raised above ground level. The floor is supplied with metal supports.

- PADLOCKS

  These top quality solid brass padlocks feature a hardened steel shackle and come complete with two keys and a five year guarantee. Two padlocks are recommended for increased security.

- SECURITY ANCHOR

  We strongly recommend installing an extra ground security anchor if the bike store is to be installed in a vulnerable location. eg TUSK Excel

Size (external): 1.33m high x 1.96m deep x 0.89m wide.

Size (internal): 1.09m high (front)/1.29m high (back) x 1.80m deep x 0.84m wide.
