

Appendix – B

Photographic Evidence

This appendix provides photographic evidence for the following sections:

- Caravan Mobility Evidence (Figures 1–3)

Caravan Mobility Evidence

Figure 1 – Mobility of Caravan by Crane

Photograph showing the caravan being lifted from its current position by crane, demonstrating physical mobility.

Figure 2 – Mobility of Caravan by Crane

Photograph showing caravan being moved by a crane to its new location. Hollow metal squares underneath the caravan and how they are connected to the crane is clearly shown.

Figure 3 – Relocated Unit

Photograph showing caravan has been moved from one location to another and resting on ground screws, proving a similar size of a caravan can be lifted and moved by a crane, regardless of its size and weight.
