Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design
Comments:	I would like to express my support of this application and proposed dormer additions. It is in keeping with the road and the plans demonstrate a thoughtful and well-considered design. Many owners within the road have looked to utilise the loft/air space of the buildings, with numerous properties having had loft extensions carried out, the vast majority of the road are now chalet bungalows. With varied plot depths, many on our side of the road being set further back, than on the odd number side, overlooking is not an issue. All of the properties within the street have extensive driveways, so there is plenty of street car parking for loading/ unloading. It is nice to see another dilapidated property have significant investment put into it, to turn it into a beautiful family home, which is only further improving the neighbourhood. I fully endorse this application.
