16th December 2010

For the attention of the Peter Barnett Planning Department

Dear Sirs,

Re: - Loft conversion at 27 Glebe Close Southwick

ADC/0434/10

I refer to the above planning application and following on from your recent Email, please find enclosed revised drawings indicating alterations to the proposed roof lights.

For the avoidance of any doubt, the roof lights on the south side have been repositioned so their opening parts will be at least 1.7m above the floor level and the window below this level will be fixed shut and obscured glazed.

Thank you for your help.

Yours faithfully

[redacted]
