Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We had a labour councilor come round canvessing who was on the planning committee - we were told that there would be no more impact on our lives - we have already refuted yet more light pollution on a previous one of these so why has it been resubmitted. There is no need to promote this building, everyone know it as the black nazi style bunker so very easy to spot so no further lighting needed. The stupidity of signing off this design is very apparent now, the planning committe should be forever ashamed that this monstosity will be their legacy. No more light pollution and serious negative impact on the lives of your constituents
