Dear Sir/Madam,

Proposal: Use of detached garage building for 1-to-1 beauty therapy services by owner/occupier of 55 Hawkins Road (Retrospective application)

Site address: 55 Hawkins Road Shoreham-by-sea West Sussex BN43 6TH

Thank you for your correspondence, please see our comments below regarding the above application

Insufficient Information provided:

Condition:

Construction of the development shall not commence until details of the proposed means of foul and surface water drainage disposal have been submitted to, and approved in writing by the Local Planning Authority in consultation with Southern Water.

Surface water discharge to Foul/Combined Network:

Discharging to FOUL SEWER -

Southern Water will refuse any request to discharge surface water into our 'foul only' sewer network. This includes where the surface water hierarchy has been followed and all alternative options have been exhausted. This approach ensures that we work together to better protect the environment, improve water quality, and reduce flood risk. It also supports our work to separate rainwater from sewage at source to meet storm overflow reduction targets under Defra's Storm Overflows Discharge Reduction Plan, as well as to reduce the number of sewer flooding incidents that are caused by hydraulic overload of our sewer network during periods of sustained rainfall.

The above is supported by our Surface Water Management Policy, which is available to view on our website. It is also supported by the National standards for sustainable drainage systems (SuDS) - GOV.UK which states the following in Paragraph 1.10 - Surface water runoff from the development shall not discharge to a foul drainage system.

Condition:

Southern Water does not accept surface water flows into the foul network. Please refer to the Surface water management <https://www.southernwater.co.uk/media/l23dbon0/surface-water-management-policy-120724.pdf>

S106 Connection application:

Any new connections to the public sewerage system will require a Section 106 connection application to be submitted and approved by Southern Water Services.

To make an application visit Southern Water's Get Connected service:

<https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available on our website via the following link:

<https://www.southernwater.co.uk/developing-building/connection-charging-arrangements>

Please note that, where there are separate systems available Southern Water will not allow surface water to connect into the public foul sewer. If this is not possible, please provide evidence that all other options have been explored.

We request that should this planning application receive planning approval, the following informative is attached to the consent: Construction of the development shall not commence until details of the proposed means of foul sewerage and surface water disposal have been submitted to and approved in writing by the Local Planning Authority in consultation with Southern Water.

Connection to public sewer - capacity available desktop study under 50:

Southern Water has undertaken a desktop study of the area, and our investigations indicate that Southern Water can facilitate foul sewerage disposal to service the proposed development. Southern Water requires a formal application for a connection to the public sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service:

<https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available on our website via the following link:

<https://www.southernwater.co.uk/developing-building/connection-charging-arrangements>

We request that should this planning application receive planning approval, the following informative is attached to the consent: Construction of the development shall not commence until details of the proposed means of foul sewerage and surface water disposal have been submitted to, and approved in writing by the Local Planning Authority in consultation with Southern Water.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site. If this happens, please call our Customer Service Desk on 0330 303 0119.

For further assistance, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (TEL: 0330 303 0119)
