Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Loss of General Amenity - Other - Overdevelopment
Comments:	I am the owner of 6 Tottington Way, a direct neighbour of 4 Tottington Way. I object to such a large building being permanently in the front garden in a residential road. I note the following: -loss of general amenity. -Overdevelopment. - it does not match the design of the front gardens of this road. -It would set a precedent for similar development. The owners of the property recently converted a garage which could have stored bikes & tools.
