Hi Peter

As we recently discussed, here is the revised drawing for the proposed carpark. This includes: access path for maintaining the river bank; type of tree for the bunding; and surface material for the carparking.

The contractor is looking to make a start on site with the carpark in two weeks time. With this in mind can you give use an idea of when the discharge of conditions we submitted for application AWDM/1589/16 is likely to be decided?

Any questions please call.

Kind regards

James Henstridge
