7th April 2011

Mr C. Hone
Planning Department
Adur District Council
Portland House
Richmond Road
Worthing
BN11 1LF

Your Ref: ADC / 0045 / 11

Dear Mr Hone,

Further to our telephone conversations today, we wish to express our dissatisfaction with the planning decision made in respect of 16 Kings Walk .

As our representation was based on a dimension of 2 metres for the rear extension, as stated by yourself during your visit on 22nd February, this renders any reduction totally negligible from our point of view. We would certainly have objected far more strongly had we known the proposed extension was to be 3 metres. Why were we not informed that our figure was incorrect when we submitted our representation on 23rd February ? We could then have submitted a revised and stronger objection.

You state that the plans were very clear , but there were no dimensions shown on them which made it very difficult to judge.You indicated to where approximately the extension would reach in relation to our patio based on a measurement of 2 metres and our response was based on that. Incidentally, no dimensions appear on any of the website drawings - is this normal council policy ?

Under these circumstances we feel we have been misinformed and await your comments. Although we understand there is no further action we can take, we are very unhappy with this outcome.

Yours sincerely
