For the attention of Rebekah Smith

ref- 38 Bushby Close, Sompting, Lancing, West Sussex

Having received a letter regarding change of use of grass verge to garden area; formation of vehicle access (hardstanding within front garden) I felt I should email with a few concerns.
Firstly I wonder whether you are aware that there are two small children who reside in the flats opposite this particular area of grass in question who play/run around on this grassed area? Not only would they loose this but I would also be aware of the safety issues of cars reversing in such close proximity to the flats and their entrance.
There are also parents who teach their children to ride their bicycles on this pavement around the road for access to the park which could also be a safety issue.
Secondly the parking in this section of the end of the road is always extremely busy and cars often park two, sometimes three deep, as well as actually on the whole of the pavements, therefore loosing this parking area to a dropped kerb and drive access would actually reduce parking for many more residents than it would be helping.
Perhaps a member of the planning committee could come and view the parking in the evenings to see the difficulty?

Kind regards
