I received your letter on the 11th of June 2025 which was dated 2nd of June regarding the above application for a loft conversion.I would like to comment on the proposal as follows.
We have seen the plans from your website and object to them for the following reasons.
The replacement of hip roof with increase height gable roof with rear dormer will block out the light from our kitchen window which is south facing as the window is only 800mm from their bungalow.
I don't know whether the architect realised there was a window on the south side.
Unusually on this estate our bungalows are closer than others that have driveways.
I look forward to hearing from regarding this matter.
