Dear Mr Appleton

I am the owner of 58, Cokeham Road, the property adjacent (on the West) to the property, 56 Cokeham Road, with regard to which a planning application has been made. I am writing to object to this application.

There is a bus stop outside my property, no 58. As things are at the moment, there is always a chance of stopping to unload/load, pick up family, etc., and even to park the car briefly as long as this is done to the East of the bus stop. The alterations for which application is being made would render this impossible. There would be insufficient room between the bus stop and the proposed new drive.

If the proposed drive were repositioned to the East, so as allow a car's length of space between the bus stop line and the desired drive, I could withdraw that part of my objection.

I am also very concerned about the height of vehicles being parked on the proposed hard surface close to the boundary of my property. My living room is structured to face South East, and is at the moment a light and pleasant room. Minibuses would take most of that light.

Yours faithfully
