Dear Ms Hearsey,

I have no objection to the planned extension for the above property.

I have seen the plans and have no objections. I am aware of the height of the extension, and know that this will not block the light from my bed room therefore I have no objection to the height. I am aware that one wall of this extension will be very close to the boundary which I am happy with.

Mr Hempenstall ,Miss Carroll, Mr K C Saunders and myself have disgust this project at great length before any plans were submitted

Many thanks
