Stance: Customer objects to the Planning Application

Reasons for comment:
- Overdevelopment
- Privacy Light and Noise

Comments: The drawings on the website are in some cases too faint to discern. However it appears that the development extends the whole way along our rear boundary and that the nearest buildings are extremely close to that boundary. That being the case I feel that our aspect and privacy are altered and challenged in an unreasonable manner and in a way that at least one previous application (to which we did not object) did not do. Additionally this appears to be an extremely condensed developoment that will introduce a concentration of new occupiers that is inconsistent with the area. These things being the case we do confirm our objection to these plans.
